# Contents

Part 1 issued November 1981

	PAGE
Exolysin Acid-resistant Mutants of <i>Bacillus subtilis</i> . By J. M. VAZQUEZ-RAMOS and J. MANDELSTAM . . . . .	1
Inhibition of Sporulation by DNA Gyrase Inhibitors. By J. M. VAZQUEZ-RAMOS and J. MANDELSTAM . . . . .	11
Role for Threonine Deaminase in the Regulation of $\alpha$ -Acetolactate Biosynthesis in <i>Escherichia coli</i> K12. By C. H. SQUIRES, M. LEVINTHAL and M. DE FELICE . . . . .	19
Water Relations of <i>Erwinia chrysanthemi</i> : Growth and Extracellular Pectic Acid Lyase Production. By J. P. MILDENHALL, B. A. PRIOR and L. A. TROLLOPE . . . . .	27
Relationship between Sporulation Medium and Germination Ability of <i>Mucor racemosus</i> Sporangiospores. By M. L. TRIPP and J. L. PAZNOKAS . . . . .	35
Resistance to Fluorouracil in <i>Candida utilis</i> : Effects on the Uptake of Pyrimidines and Amino Acids. By D. G. WILD and G. I. WILSON . . . . .	45
The Role of Streptomyces in Decomposition of Chitin in Acidic Soils. By S. T. WILLIAMS and C. S. ROBINSON . . . . .	55
Organization and Expression of the Pyruvate Dehydrogenase Complex Genes of <i>Escherichia coli</i> K12. By J. R. GUEST, S. T. COLE and K. JEYASEELAN . . . . .	65
Germination and Resistance Defects in Spores of a <i>Bacillus subtilis</i> Mutant Lacking a Coat Polypeptide. By H. F. JENKINSON . . . . .	81
TnA-directed Deletion of the <i>trp</i> Operon from RSF2124- <i>trp</i> in <i>Escherichia coli</i> . By H. TSUNEKAWA, M. TATEISHI, T. IMANAKA and S. AIBA . . . . .	93
Investigation of the Determinants of the Survival of <i>Neisseria gonorrhoeae</i> within Human Polymorphonuclear Phagocytes. By N. J. PARSONS, A. A. A. KWAASI, J. A. TURNER, D. R. VEALE, V. Y. PERERA, C. W. PENN and H. SMITH . . . . .	103
Some Properties of the <i>Clostridium butyricum</i> Group $\beta$ -Lactamase. By M. MAGOT . . . . .	113
Partial Characterization of Fatty Acid Synthase of <i>Propionibacterium shermanii</i> . By P. M. AHMAD, L. A. STIRLING and F. AHMAD . . . . .	121
Enzymes Relevant to Kojic Acid Biosynthesis in <i>Aspergillus flavus</i> . By P. BAJPAI, P. K. AGRAWALA and L. VISHWANATHAN . . . . .	131
Protoplast Fusion in <i>Streptomyces</i> : Conditions for Efficient Genetic Recombination and Cell Regeneration. By R. H. BALTZ and P. MATSUSHIMA . . . . .	137
The Use of M1 Medium in Transformation of <i>Streptococcus pneumoniae</i> . By R. W. GRIST and L. O. BUTLER . . . . .	147
Characterization of Conjugative R Plasmids Belonging to the New Incompatibility Group IncU. By H. TSCHÄPE, E. TIETZE and C. KOCH . . . . .	155

Characterization of <i>Serratia odorifera</i> , <i>S. fonticola</i> and <i>S. ficaria</i> by the Electrophoretic Patterns of their Esterases. By PH. GOULLET . . . . .	10
Correlation of Lipid Accumulation in Yeast with Possession of ATP:Citrate Lyase. By C. A. BOULTON and C. RATLEDGE . . . . .	10
Induction, Localization and Characterization of $\beta$ -D-Glucosidases Produced by a Species of <i>Monilia</i> . By R. F. H. DEKKER . . . . .	15
Effects of Carbon Source and Inorganic Phosphate Concentration on the Production of Alginic Acid by a Mutant of <i>Azotobacter vinelandii</i> and on the Enzymes Involved in its Biosynthesis. By N. J. HORAN, T. R. JARMAN and E. A. DAWES . . . . .	18
Regulation of Extracellular Alkaline Protease Activity by Histidine in a Collagenolytic <i>Vibrio alginolyticus</i> Strain. By S. LONG, M. A. MOTHIBELI, F. T. ROBB and D. R. WOODS . . . . .	19
Metabolism of the Polysaccharides of Human Dental Plaque: Release of Dextranase in Batch Cultures of <i>Streptococcus mutans</i> . By G. J. WALKER, A. PULKOWNIK and J. G. MORREY-JONES . . . . .	20

#### SHORT COMMUNICATIONS

Sub-divisions Within the Genus <i>Leuconostoc</i> as Shown by RNA/DNA Hybridization. By E. I. GARVIE . . . . .	20
Induction of Phenotypically Determined Resistance of <i>Neisseria gonorrhoeae</i> to Human Serum by Factors in Human Serum. By P. M. V. MARTIN, P. V. PATEL, N. J. PARSONS and H. SMITH . . . . .	2
Distribution of Group E Colicin Types in Shiraz, Iran. By N. S. WALEH . . . . .	2

#### Part 2 issued December 1981

Effect of Starvation on Transport, Membrane Potential and Survival of <i>Staphylococcus epidermidis</i> under Anaerobic Conditions. By N. J. HORAN, M. MIDGLEY and E. A. DAWES . . . . .	2
Cellulase Activities of Some Aerobic Micro-organisms Isolated from Soil. By J. M. LYNCH, J. H. SLATER, J. A. BENNETT and S. H. T. HARPER . . . . .	2
A Numerical Taxonomic Study of Members of the <i>Actinomycetaceae</i> and Related Taxa. By G. M. SCHOFIELD and K. P. SCHAAL . . . . .	2
The Gradostat: a Bidirectional Compound Chemostat and its Application in Microbiological Research. By R. W. LOVITT and J. W. T. WIMPENNY . . . . .	2
Physiological Behaviour of <i>Escherichia coli</i> Grown in Opposing Gradients of Oxidant and Reductant in the Gradostat. By R. W. LOVITT and J. W. T. WIMPENNY . . . . .	2
A Gel-stabilized Model Ecosystem for Investigating Microbial Growth in Spatially Ordered Solute Gradients. By J. W. T. WIMPENNY, J. P. COOMBS, R. W. LOVITT and S. G. WHITTAKER . . . . .	2

Some Structural and Physiological Properties of Fimbriae of <i>Streptococcus faecalis</i> . By P. S. HANDLEY and A. E. JACOB . . . . .	289
Isolation of Cell Surface Mutants of <i>Acinetobacter calcoaceticus</i> RAG-1. By E. A. BAYER, E. ROSENBERG and D. GUTNICK . . . . .	295
Differentiation of <i>Dictyostelium discoideum</i> Cells in Suspension Culture. By K. OKAMOTO . . . . .	301
Respiratory Properties of Mitochondria Isolated from Conidia of <i>Neurospora crassa</i> . By R. ORTEGA PEREZ, M. MICHÉA-HAMZEHPOUR and G. TURIAN . . . . .	309
Dimethyl Sulphoxide and Dimethyl Sulphide as a Carbon, Sulphur and Energy Source for Growth of <i>Hyphomicrobium</i> S. By J. A. M. DE BONT, J. P. VAN DIJKEN and W. HARDER . . . . .	315
Isolation and Partial Characterization of Three Cryptic Plasmids from Strains of <i>Clostridium butyricum</i> . By N. MINTON and J. G. MORRIS . . . . .	325
Evidence for Plasmid-mediated Restriction-Modification in <i>Mycobacterium avium</i> <i>intracellulare</i> . By J. T. CRAWFORD, M. D. CAVE and J. H. BATES . . . . .	333
Streamers: Chemotactic Mutants of <i>Dictyostelium discoideum</i> with Altered Cyclic GMP Metabolism. By F. M. ROSS and P. C. NEWELL . . . . .	339
The Invasion of HeLa Cells by <i>Salmonella typhimurium</i> : Reversible and Irreversible Bacterial Attachment and the Role of Bacterial Motility. By G. W. JONES, L. A. RICHARDSON and D. UHLMAN . . . . .	351
The Attachment to, and Invasion of HeLa Cells by <i>Salmonella typhimurium</i> : The Contribution of Mannose-sensitive and Mannose-resistant Haemagglutinating Activities. By G. W. JONES and L. A. RICHARDSON . . . . .	361
Effects of Glucose Concentration on Biomass, Maximum Specific Growth Rate and Extracellular Enzyme Production by Three Species of Cutaneous Propioni- bacteria Grown in Continuous Culture. By J. GREENMAN, K. T. HOLLAND and W. J. CUNLIFFE . . . . .	371
Production, Purification and Chemical Properties of an Antistaphylococcal Agent Produced by <i>Staphylococcus epidermidis</i> . By H.-G. SAHL and H. BRANDIS . . . . .	377
Uptake of 3,4-Dihydroxy[ <sup>3</sup> H]phenylalanine by <i>Mycobacterium leprae</i> Isolated from Frozen (-80 °C) Armadillo Tissue. By S. R. KHANOLKAR, E. J. AMBROSE and P. R. MAHADEVAN . . . . .	385
Proline Uptake in <i>Candida albicans</i> . By N. DABROWA and D. H. HOWARD . . . . .	391
The Dehalogenase Complement of a Soil Pseudomonad Grown in Closed and Open Cultures on Haloalkanoic Acids. By D. J. HARDMAN and J. H. SLATER . . . . .	399
Insoluble Glucan Synthesis by Mutansucrase as a Determinant of the Cariogenicity of <i>Streptococcus mutans</i> . By D. G. WENHAM, R. M. DAVIES and J. A. COLE . . . . .	407

## SHORT COMMUNICATIONS

Protoplasts in the <i>in vivo</i> Life Cycle of <i>Erynia neoaphidis</i> . By T. M. BUTT, A. BECKETT and N. WILDING . . . . .	417
--	-----

ATP:Citrate Lyase – The Regulatory Enzyme for Lipid Biosynthesis in <i>Lipomyces starkeyi</i> ? By C. A. BOULTON and C. RATLEDGE . . . . .	42
The Halophilic Properties of <i>Vibrio parahaemolyticus</i> . By C. PALASUNTHERAM . . . . .	42
